# G2410 & G2420 BELT SANDER

## Make a huge difference In small spaces

Eliminate burr and unnecessary costs with the Atlas Copco G2410 and G2420.

Cleaning welds or rust removal in cramped spaces demands a versatile belt sander. The multifaceted G2410/20 has exchangeable support arms, so you can change the dimension of the abrasive used.

The design of the arm attachment even allows non Atlas Copco arms to be fitted on the tool for increased flexibility.

To make this tool as ideal as possible for your applications, we offer arms and abrasives and felt belts in the range of 3-13mm x 305mm for G2410 and 19mm x 520mm for G2420.
