

Atlas Copco

Compressed Air Systems – The Air and Gas Specialist

From June 2021, Compressed Air Systems is a branch of Atlas Copco Compressors. We are proud to have been serving customers across the region for several decades and we can't wait for the next chapter in our history.

The great people you work with day-to-day will not change. In addition, we will offer increased capacity, new digital tools and an enhanced support network – ensuring the efficiency of your operations. Every move we make will be made with your business at the center of our thinking.

Our promise to you is to do more. What does that mean? Simply, we go further, bringing innovation to every aspect of our offering to you – and that extends way beyond products. Every compressor, dryer, chiller, blower, and gas generation system that's sold with our name on it comes with this promise. We innovate in focused areas where we are confident we can

provide a complete solution that has the lowest cost of ownership, maximizing efficiency and, most importantly, offer a complete, customized service package that is second to none – including remote monitoring and auditing services.

We want to be your partner. Let's work together to find your savings level or productivity number and develop a plan to achieve it. Our promise to you is we do more. And, together with you – we are more!

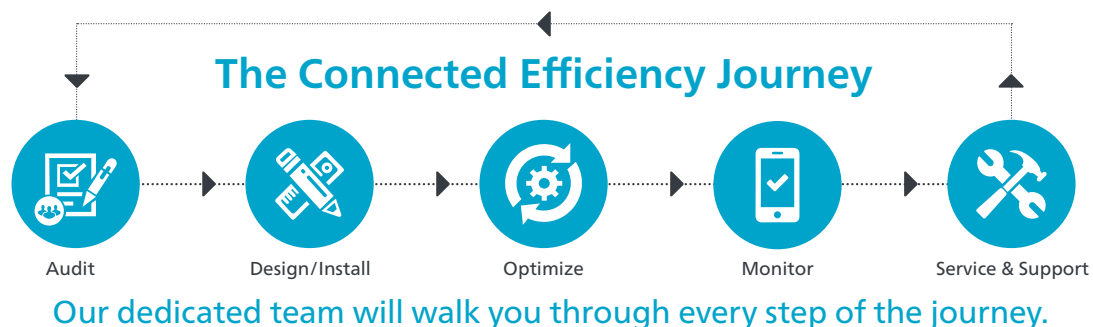

We look forward to serving you long into the future.
